

GENERATING \$ GREEN \$ FOR THE HOME TEAM!

Green Revolution, Inc.

presents a new product...

Greasorber

with **GREEN** fundraising opportunities!

WHAT IS A GREASORBER?

It is a grease absorbing pad that provides an easy clean up solution to the problem of leftover fats, oils and grease (FOG).

**The mess of pouring and storing grease after frying--- no more!

**Greasorber is made of recycled paper and is considered an environmentally responsible alternative to storing leftover grease, pouring grease down the drain or onto the ground.

WHY USE THIS AS A FUNDRAISER?

**Your organization can benefit by using the Greasorber product as a fundraiser with up to 50% profit margin!

**This product has broad appeal for household consumers because of the convenience and the savings related to the maintenance of septic systems.

**This is a bonus to the environment and to your organization is considered to be mutually beneficial, thereby contributing to a greener planet and generating some green for your team!

**Please view our demonstration at www.greasorber.com

**Contact our customer service at 870.925.0222 or info@greenrevolutiontoday.com
